

REGISTRATION FORM YOUTH COMPETITION 2019-2020

The Badminton Association Almere is a strong supporter of playing matches in competition. During the competition you can show everyone what you have learned in the training sessions, but you also get a lot out of it yourself and it is very nice together!

Youth players find playing competition very exciting and fun, and in addition, these players are very forward in the badminton game by playing the matches. Playing together with other children, learning to deal with profit and loss, getting to know new children, all educational aspects of playing competition. That is why we strongly encourage the playing of youth competition.

The teams must be composed by age.

There are teams in the ages of <11 yr, <13 yr, <15 yr, <17 yr and <19 yr.

Your team consists of at least 4 children, preferably 2 boys and 2 girls, however in the classes <11 yr and <13 yrs this may also be another combination, eg 3 girls and 1 boy.

Your team can also consist of a team of 3 children. The combination of boys and girls does not matter in this.

The youth competition is played every year between September and February and consists of 14 play weeks (in the autumn holidays and around the holidays no games are played). In every game week a game is played against a youth team of another club.

Your team is in a group of max. 8 teams from various associations from the North Holland region and the Center region. You play 14 matches, 7 at home (Sporthal Ridders, our own sports hall) and 7 out. The competition is played on the weekend. The home games are always on Sunday morning at half past 10. (except for a possible exception). At the away games the parents are asked to ride. This has to be arranged together. All results are processed in a state overview, and at the end of the 14 game weeks one team may call themselves Champion.

A competition consists of 8 matches: 1x boys double, 1x girls double, 2x boys only, 2x girls single and 2x mixed double. Each match is a point you can play 8-0 but also 6-2, 4-4 etc.

In games in a team of 3 people 6 parties are played. 3x a double and 3x a single. Here each child plays 2 doubles and 1 single. Each match is a point so you can play 6-0 but also 5-1, 3-3 etc.

So you can sign up for the youth competition by means of the registration form!

The form can be found under: <https://www.bvalmere.nl/jeugd/formulieren/jeugd-competitie>

Please fill in online and not hand in a trainer. The handwriting is sometimes difficult to decipher. If it is delivered digitally, we can not lose anything.

For the agreements and rules concerning the competition, I refer you to the documents on the link below: <https://www.bvalmere.nl/jeugd/formulieren/jeugd-competitie> and read this carefully!

Rules

The following rules apply when registering.

1. During the league game you are obliged to play in the club shirt.
2. Signing in also means that you want to play competition. Retiring at the last moment or after the final classification is very annoying for your team and is only possible in special cases, for example when moving. Pass this on to the competition leader as soon as possible. We will then have to recover from you any fines that this generates from the association.
3. You as a team are responsible for carpooling / driving to the away games. Have a good consultation with the team about this!

4. Your parents are **obliged** to run a bar service twice a season with the other parents of your team. Usually on the Sunday that you play a home game. But this can also be a time during another youth event or tournament.

5. When registering for the competition, you are expected to train as much as possible and participate in as many competitions as possible. If you are absent very often without a clear and timely reason, we can decide, in consultation, to remove you from the team.
6. If you can not play a competition match, you sign up in time with the league leader

Do you have any questions? Then you can always contact one of your trainers. The outbound delivery date is 1 April 2018, but the sooner, the better. The definitive team division must be passed on to the association before 1 May.

If you want to play seniors competition you need to register for the youth competition. Then put in the comments that your seniors want to play competition. This is done in consultation with the sports technical committee of the seniors. It does not mean that you are automatically classified in the seniors competition.

The teams are put together in consultation with the trainers, where we take into account your wishes as much as possible. The starting point is that we have a suitable place for every member. If that really does not work, you will at least be on the reserve list of substitutes. The main thing is that you can play a sporting, fun and challenging competition. We hope for a large number of registrations again!
